THE WEEKLY SUN.

B A L T I M O R E

PUBLISHED EVERY SATURDAY MORNING,

BY A. S. ABLE & CO.,

FROM THE "SUN IRON BUILDING,"

At the S. E. corner of Baltimore and South sts.

Terms Cash in Advance:

For One Copy for Six Months or less	$1 00
For One Copy for One Year	1 50

THE WEEKLY SUN will renew its best efforts as a first-class News and Literary Journal. Every improvement of modern journalism—by which it is distinguished—will be maintained, and such attention be given to its several departments as will insure their continued interest, and whatever may be necessary to render them more complete will not be lost sight of.

Through no other medium can families and individuals in the towns and villages and rural districts of the country be so well supplied with proper literature, and a full knowledge of the world's whole news, from week to week.

MAKE UP CLUBS.

While the WEEKLY SUN is afforded at the low rate of $1 50 per annum to single subscribers, the CLUB rates are still lower, carrying the price down as low as *one dollar* per year where twenty-five copies or more are taken at one post office at a time, viz:

Club of Six Copies, One Year	$8 00
Club of Twelve Copies, One Year	15 00
Club of Fifteen Copies, One Year	18 00
Club of Twenty Copies, One Year	22 00
Club of Twenty-five Copies, One Year	25 00
Club of Thirty-five Copies, One Year	35 00

Parties, then, should get up CLUBS in their towns, villages and neighborhoods, and thus secure the advantage of these very low rates. Any postmaster or storekeeper in the county may easily accomplish this among his acquaintances, or any active person, male or female, do the same. The regular diffusion of the light and intelligence which such a journal affords will be a moral and social advantage in any neighborhood.

To those parties getting up clubs for the Weekly Sun, sent to one post office, we will mail hereafter to the address of any one sending us

JUDGE BLACK'S LETTER TO ATTORNEY GENERAL HOAR.

Mr. Hoar's Eulogy on the Late Secretary Stanton.

WASHINGTON, Jan. 18, 1870.

Hon. E. E. Hoar, Attorney General.

SIR I was not present in court yesterday to hear your remarks on Mr. Stanton, but to-day I was shown a newspaper report of them, which I presume to be perfectly accurate. The following paragraph has struck me with surprise:

"But it is not of the lawyer, eminent as he was in the science and practice of the law, that men chiefly think as they remember him. His service to mankind was on a higher and wider field. He was appointed Attorney General by Mr. Buchanan on the 20th of December 1860, in one of the darkest hours of the country's history, when the Union seemed crumbling to pieces, without an arm raised for its support; when without the public councils was doubting, and within were fears; when feebleness and treachery were uniting to yield whatever defiant rebellion might demand and good men everywhere were ready to despair of the republic. For ten weeks of that winter of national agony and shame, with patriotism that never wavered and courage that never quailed, this true American, happily, not alone, stood manfully at his post, "between the living and the dead," gave what nerve he could to timid and trembling imbecility and met the secret plotters of their country's ruin with an undaunted front until before that resolute presence the demons of treason and civil discord appeared in their own shape, as at the touch of Ithuriel's spear, and fled baffled and howling away."

This statement was carefully and deliberately written down before you delivered it. You spoke for the American bar as its organ and official head, and you addressed the highest tribunal in the world, knowing that your words were to go upon its records and there remain forever. I take it for granted, under these circumstances, that no earthly temptation could make you deflect a hair's breadth from the facts as you understand and believe them.—The inevitable conclusion is that you must have in your possession, or within your reach, some evidence which convinces you that what you said is the truth. I am sure you will excuse me for asking you to say what that evidence is. The paper I have transcribed from your address sounds like the authorative summary of a historian, as he closes the most interesting chapter of his book. You can hardly consider the curiosity impertinent that prompts an American citizen to inquire what your judgment is founded upon. Besides, I have some friends whose reputation is deeply involved in the affairs you pronounce upon with so much confidence. Moreover, I have a personal concern in your remarks, for I am one of Mr. Stanton's colleagues and am as liable as any one of them to be taken on your statement for one of the "secret plotters of their country's ruin." Be pleased, therefore, to give me the information I seek.

Do you find on the records of your office anything which shows that Mr. Stanton was in violent or dangerous conflict with "demons of treason and civil discord?" or any other description of demons?" Did Mr. Stanton himself ever lay claim to the heroic character you ascribe to him or declare that he had performed those prodigious feats of courage while he was in Mr. Buchanan's cabinet. Has any other person who was in a condition to know the facts ever given you that version of them which you repeated to the court? If yes, who are the witnessess? what particular danger was he exposed to which tested his valor, and made his "undaunted front" a thing so wonderful in the description of it? Whose "feebleness and treachery was it that united to yield whatever defiant rebellion might demand?" and how did Mr. Stanton's courage dissolve the combination or defeat its purposse?

You say that for ten weeks "he stood manfully at his post, between the living and the dead" Now when the first law officer of the United States addressed the Supreme Court on a special occasion, and after elaborate preparation, he is presumed to mean something by what he says. How is this to be understood? You certainly did not intend to assert merely that he stuck to his commission as long as he could, and gave it up only when he could not help it. Standing manfully at a post of any kind, and especially when the stand is made "between the living and the dead," has, doubtless, a deep significance, if one could but manage to find out what it is. Who were the dead and who were the living? and how did it happen that Mr. Stanton got between them? What business had he between them, and why did he stay there for ten weeks? These questions you can easily answer, and the answer is needed; for in the meantime, conjectural interpretations are very various and some of them injurious to the dead and living aforesaid, as well as to Mr. Stanton, who according to your representation, stood between them.

I can comprehend the well worn simile of Ithuriel's spear, but I do not see what on earth was the use of it unless you thought it ornamental and original, for you make Mr. Stanton, by his mere presence, and without a spear, do what Ithuriel himself could not do with the aid of that poweful instrument. The angel with the spear compelled a demon to lay aside his disguise, while a mortal man dealt with many demons, and not only made them all appear in their proper shape, but drove them "baffled and howling away" out of his "resolute presence." I do not object to this because the figures are mixed or because it is an extravgant outrage on good taste. The custom of the times allow men who make eulogies on their political friends to tear their rhetoric into rags, and if you like the tatters you are welcome to flaunt them. But I call your attention to it in the hope that you will talk like a man of the world, and give us in plain, or at least intelligible, prose, a particular account of the very important transactions to which you refer, together with the attendant circumstances. I suppose you have no thought of being taken literally. Your description of Mr. Stanton conjuring demons is only a metaphorical way you have of saying that he frightened certain bad man. I beg you to tell me who they were and how he scared them.

I repeat you are not charged, and in my opinion could not be justly charged with the great sin of fabricating statements like these. You have, no doubt, seen or heard what you regard as sufficient proof of them. What I fear is, that you have been misled by the false accounts which partisan writers have invented, not to honor Mr. Stanton but to slander others.

If you had known the truth concerning his conduct while he was Attorney General, and told it simply, you might have done great honor to his memory. He was at that time a regular built, old-fashioned democratic union saver. He believed in the Constitution as the fundamental law of the land, as the bulwark of the public liberty, and as the only bond by which the States could be rightfully held together. He regarded his official oath as a solemn covenant with God and his country, never to be violated under any circumstances; and he had a right wholesome contempt for that corrupt code of morality which teaches that oaths are not binding upon the rulers of a free country when they find it inconsistent with their interests to keep them.—He uniformly behaved with "modest stillness and humility," except when his opinion was asked, and then he spoke with becoming deference to others. From that part of his life at least, you might by telling it truly, have derived a "lofty lesson" indeed. But this quiet, unpretending, high-principled, democratic gentleman is converted by your maladroit oratory into a nectoring bully of the abolition school, rampaging through the White House and around the department, trying to frighten people with big looks.

I beseech you to re-examine your authorities. If you still think them sufficient to sustain you, I cannot doubt your willingness to communicate them for the scrutiny of others who are interested. If on the contrary, you shall be satisfied that you have made a great mistake, then justice to all parties, and especially to the subject of your well meant but unfortunate eulogy, requires some amends to be made. It will be for you to say whether you will or not ask the Court for leave to withdraw that part of your speech from the record.

J. S. BLACK.

CHANCES OF MARRIAGE.

In olden times, says a Frenchman, who with the usual assurance of his countrymen, pretends to know something about woman, female beauty was so fascinating that it was a certain means of securing a husband. Nowadays, he adds, men have reflected upon the subject and it is seldom that a girl is married for her personal attractions, whatever they may be; so she runs a risk of always keeping her honorble title of maid, if her parents are not rich enough to pay a handsome sum to some gallant or other to change it into that of wife.

It is an accident, or in fact a sort of prodigy when a man marries a woman solely for her beauty, a quality which has singularly fallen in value in our mercenary days. If it ever should take a rise, it might be well to adopt the Persian mode of reducing the number of old maids. This consisted in selling the beautiful girls to those who were willing to buy them, and giving the amount to the ugly; so that the handsomest endowed the ugliest; the second in beauty, the second in ugliness. *et cetera.*

But this plan would be, we fear, inapplicable in our days; for there would be but few bidders for the beautiful women, and the ugly, if the money was to go with them, would be the only ones to find takers. Seriously, continues the Frenchman who it must be borne in mind, is speaking in France and not in the United States, marriage is tending to disappear from our social habits. The number of old maids, especially of the middle class, is increasing daily.

A laborer or mechanic has no difficulty in getting married, for his wife takes her share of the work. In such cases matrimony is a joint stock association. The working man spends less when married than single. His clothes being made and kept in repair at home, and the more wholesome and less expensive nourishment more than compensates for any additional expense of having another person to provide for. This we need not say, alludes to France, and may be more or less true, as we hope it is in our own country.

Among the rich especially where the women brings a handsome dowry, marriage is also possible; but in the middle class, how can it be nowadays? All the young girls were brought up in the same way. Each one is so exclusively adapted for the great prizes that there are none suitable for the inferior ones. What are now called the necessaries are far more than what were formerly considered the luxuries of life. All kinds of equality have been tried at various times, but one only has been retained, and that the most dangerous and most fatal of all—the equality of expense.

Every girl is brought up with the idea that she will draw in the lottery of marriage a first prize. It is imagined that style and accomplishments will make up for a want of fortune. It is a mistake; they will only make it more necessary; in fact, absolutely indispensible.

Marriage is the greatest luxury a man can indulge in. When we reflect that all the women of the middle class are nowadays brought up to shine in society, that there are no longer any marked distinctions as far as expense is concerned, and that the standard of necessary living is fixed according to that of the richest, a man must be indeed greatly in love if he does not hesitate before the "mountain of velvet, silk, and jewelry that he must consume all his days in accomplishing, in order that his wife may be properly dressed."

For men of this class, woman is not a companion, to take a share in proportion to her strength of the common cares and labors of life, but an idol that he must pass his days in adorning for the admiration of others. A poor man who marries such a woman without dowry would be capable of buying a a horse which had to be fed upon topazes and emeralds instead of oats. So it is now rare to find a husband of the kind, and soon it will be impossible. This is what they are coming to in France, according to a very good authority.

Let our countrywomen take this warning fresh from Paris, together with the other fashions they are so fond of getting from the same quarter, and thus using the one as an antidote to the excess of the other, avoid throwing away the chances of marriage.

THE BEST USE OF THE BIBLE.—"My mother gave me a Bible for my gift last Christmas," said a little girl, complacent, "and Louise gave Cousin Harry one, at the same time. Now just look at them, and see the diffeence!"

Harry's was a little worn. Its gilt edges were tarnished, and the newness was gone from the cover, but it looked as if it had been read very often. Here and there I saw pencil marks near favorite verses, and in one or two places it seemed as if tears might have fallen. Little Harry Gordon had become a christian, lately, and his Bible had evideutly been very precious to him.

Minnie said triumphantly, after I had finished my look at Harry's, "Now see mine!" She unfolded the tissue papers from it, and there it was just as fresh and fair and uninjured as when it came out of the shop.

"I've never had it out of the drawer but once," said Miss Minnie, "and that was to show to somebody."

"Minnie," said I, "if your father was away from home, and should send you a letter, telling you just what he wanted you to do and be, would it be good treatment never to break the seal, and lay it away in the drawer unread? Would it not rather be better to take it out every day and read it over and over, trying all the more each time to obey its injunctions?"

"Yes!" said Minnie, blushing and hanging her head, as she began to see my meaning.

"This is God's letter to you, my love! Like the man who folded away his talent in a napkin, you have folded up your precious Bible. Hereafter, my child, use it as God wants you to. 'Search the Scriptures, for in them ye think ye have eternal life, and they are they which testify of me.'"

That was a profound philosopher who compared advertisiug to a growing crop. He said: "The farmer plants his seed, and while he is sleeping the corn is growing. So with advertising; while you are sleeping or eating, your advertisement is being read by thousands of persons who never saw you or heard of your business, nor never would had it not been for your advertising."

An editor out West became a captain, and on parade, instead of saying "Two paces in front—advance," he unconsciously exclaimed: "Cash down, two dollars a year in advance." He was court-martialed and sentenced to read his own newspapers for three months.

A new style of bonnet is announced for the spring. When viewed through a microscope it is said to be exquisitively lovely. It is, of course, high in price, the diminution in the size of the article having greatly enhanced its value.

An old fellow being visited by his pastor, he asssured him he could not be a good christian unless he took up his daily cross. Whereupon he caught up his wife and began lugging her about the room

A hog was killed in Springfield, Illinois, the other day, and in its stomach was found thirty nails, half a saw, one file and a suspender buckle. It is surmised that at some period the animal swallowed a carpenter.

A body of infantry arrived at Knoxville, Tennessee, the other day, from Virginia, on a train. The cars contained forty-seven babies.

The man who is so fond of his dear little wife as to call her a bird, must not be disappointed if she asks him to buy her feathers.

Wonder if the "pillars" of liberty are stuffed with the feathers of the American eagle?

How may a man be known from a fatigued dog? One wears a shirt, the other pants.

It is the tone to wear only one glove.

FARMERS COLUMN.

There is something in a kind of breed, but not so much as we imagine—not so much as in good treatment independent of the breed. The two together do well. So does good farming, good anything.

The Western Stock Journal says the very best food for milch cows is wheat-bran. Nothing has so great a tendency to increase the flow of milk, and as it abounds in phosphates, it is highly nutritious and healthful diet. Give the cows all they will eat of it, and if convenient, mix a little corn-meal with it. Don't over-feed, but give just what they will lick up with a relish, and you will be rewarded with an abundant supply of milk, and your cows will keep in good condition.

Horse Gears.—There is a great deal in gearing a horse or mule so as to enable the animal to work easy, and use a certain amount of power with comparatively small animal force. Much depends on long or short leverage. The draft may be too high or too low;—the one will draw too heavy on the top of the neck, the other will choke the animal. The collar may be too large or too small—either of which will cause sore shoulders. A tender-mouthed horse should have a large, smooth bit, and not to be reined up too tight, or the mouth will become so sore as to lose its sensitiveness to a gentle draw of the reins. Every part of the harness should be as complete a fit as a dandy's coat; touching everything and pinching nowhere. The harness should be kept soft and clean.

The horse is like its driver, and the dog like his master. A nervous, timorous man is almost sure to have a skittish horse, shying at everything uneady, and a runaway if he gets a chance. Many a cow is spoiled by lack of patience and quietness in the milker, and the amount of milk depends more upon the milker than the pasturage. If a man is afraid of a horse, the animal knows it before he goes into the stable. We have seen the most inoffensive cow in the herd so wrought upon by the nervousness of a green-horn son of Erin, as to dexterously plant her foot in his breast and send him rolling heels-over-head. A noisy boisterous fellow about fattening stables will cause a serious loss in gain of flesh to the animals. So important is quiet to them when they are digesting their food.

Looking for a Place.—Persons looking for a farm ought to have a distinct and clear idea of what they want, a sort of a scale of points, which will greatly aid them in the selection. No place may fully satisfy the requirements of such a schedule, but it will be found useful nevertheless, to fix in the mind what is wanted, and approach it as nearly as possible.

We suggest the following points to be looked to, for a residence in the country:

Facility of access.
Water and its character.
Location as to health, &c.
Educational and religious facilities.
Beauty of prospect, exposure as to winds, character of the land itself.
Prospective value of the property.
Facilities for purchasing family supplies.

There are other points, and we only present these as among the more important.—*Ploughman.*

A Fact in Regard to Horses' Feet.—There is perhaps no more marked exhibition of nature's law of adaptation of means to ends, or of supply to waste, than is shown in the arrangement of a horse's foot. There terminate the various ducts of communication and supply, rendering it a point of animal economy of no little importance. The extremity of the limb being of such a vital character, and coming in contact with the ground, needs protection; accordingly the hoof is constructed, especially, it appears, to prevent injuring the inner part of the foot in coming against the ground, and not with regard to injury from above or on the sides of the foot. A consistent fact, since, in a state of nature, these portions of the foot are not subject to injury any more than is the rest of the animal. The directions and arrangement of the fibres of the hoof proves this point as do practical tests, also. A nail driven into the wall of the hoof from below, on account of this arrangement of the fibre, occasions no pain, and in some instances where horses have become lame from no apparent cause, it has been simply the result of an inner irritation, caused by pounding the hoof. This is an important point, and should not be overlooked by horsemen. An arrangement by which the nails on a horse's hoof could be clinched without using a hammer would evidently be an advantage.—*New England Homestead.*

Preserving Grape-Cuttings.—Grape-cuttings made in cold weather, when it is not practicable to bury them in the ground, may be kept in a cellar by simply tying in bundles and then placing compactly together. With an occasional sprinkling, they may be kept for a month or two without receiving the slightest injury. Of course it would be a much better plan to pack in damp moss, earth, sawdust, or some similar material, but neither of these is usually attainable at this season of the year, and yet a delay in making the cuttings would not be advisable.

Cheap Cake.—Two eggs, one-half cup butter, one cup sugar, one-half cup sweet milk, one-half teaspoonful cream tartar, one-quarter ounce of soda and flour to make as stiff as cup cake.

Cheap Cookies.—One cup good sour cream, one cup sugar, one half-half teaspoonful saleratus, nutme

DEMOCRATIC COUNTY CONVENTION.

Pursuant to public notice, the Democratic County Committee met at the Gazette office, in Bedford, on Monday last, and adopted the following resolutions:

Resolved, That it is the sense of this Committee that a County Convention should be called for the purpose of taking into consideration the propriety of altering and revising the rules of the Democratic party of Bedford county governing nominations.

Resolved, That such Convention is hereby called to meet at the Court House, in Bedford, on TUESDAY EVENING, March 1, (Special Court) and that each election district shall be entitled to one delegate in said Convention.

The Democrats of the several districts of the county are, therefore, hereby notified to meet at their respective election-places and choose one person to represent their respective districts in said Convention.

By order of the County Committee.

E. F. KERR,
Chairman.

GENERAL PAINE, of Wisconsin, has expressed a strong desire to be relieved from further service in the Committee of Elections of Congress. He is disgusted with the acts of his associates. In view of the infamous reports in the cases of Covode, of Pennsylvania, Van Wyck, of New York, and Wallace of South Carolina, this is not at all surprising. Generel Paine is a republican. He has served his country with distinction in the field, and bears on his person the marks of terrible wounds received in battle. He feels no necessity to commit frauds on the right of representation in order to testify his devotion to his party. It is needless to add that John Cessna is a member of that committee from service in which General Paine desires relief.

THE legislature passed a bill the other day to establish a Metropolitan Police in the city of Philadelphia. The object of the measure was to take the control of the police out of the hands of the Mayor, who is a Democrat, in order that it might be placed in the power of radical politicians who desire to use it to elect themselves to Congress, the State legislature, and other lucrative offices. This direct blow at local self-government, however, was destined to fall short of its aim. Gov. Geary vetoed the bill. His message returning it to the Senate in which it originated, is an admirable State paper and thoroughly Democratic in tone. We are glad to be able to commend this act of the Governor. Some of the radical newspapers are assailing him with great bitterness because of this veto. If he could only be persuaded to go on in the good work, we should feel disposed to forgive him many of his past sins.

THE *Inquirer*, like a drowning man catching at a straw, rails out concerning the vote of Senator Findlay in regard to the publication of a *Legislative Record*. If Mr. F. had voted to continue the *old Record*, which under the rule of the *Inquirer's* party at Harrisburg had grown to be a monstrous swindle, we would join it in denouncing that gentleman. But the proposition for which Mr. Findlay voted was quite different from what it is represented by the *Inquirer*. Bergner's old *Record* job cost the State some $24,000 per annum. The *Record* for which our Senator voted was to cost not more than $8,000, about one third of that of former years. This was a vote in favor of retrenchment, and instead of denunciation, Mr. Findlay should receive credit, for giving it.

SENATOR REVELS, of Mississippi will soon apply for his seat in the United States Senate. He is the colored gentleman who was elected to that dignified station, the other day, by the carpet-bag legislature of Mississippi.—Our Republican friends in this neighborhood will probably be called upon to imitate the example of their brethren in that State. As they expect to obtain the colored vote, they had better give that element some representation on their ticket. We suggest that they nominate one of the Fifteenth Amendment voters for Associate Judge. As they pretend to be so very friendly to the citizens of African descent, this suggestion is made to test their sincerity.

SENATOR MORROW B. LOWRY, of the State Senate, an out-and-out "Republican," recently denounced George Bergner, of the Harrisburg *Teiegraph*, the central organ of the "Republican" party in this State, as and "old State robber, every ounce of flesh on whose body had been stolen from the labor of the tax-payers." There is a Dawes in Congress and a Lowry in the Senate, and the consequence is that some rich tales are being told out of the Radical School.

Henry D. Foster is spoken of as the next Democratic candidate for Congress in the Westmoreland district.

DEMOCRATIC MASS MEETING.

The Democracy Alive and Kicking, in spite of the Weather.

A Good Turn-out and the Best of Feeling.

The Democrats of Bedford county and others who intend to act with the Democracy in future, assembled in the Court House, on Monday evening last, in Mass Meeting. Notwithstanding the pouring rain, and the general cheerlessness of the weather, the Court room was well filled.

On motion HON. W. G. EICHOLTZ was elected President.

Geo. Elder, James Northcraft, James Cessna, Esq., Josiah Ritchey, Adam Zembower, Geo. Roades, S. H. Feather, Solomon Barley, Josiah Elder, Josiah Mowry, Peter M. Barton, John Harshbarger, W. S. Fluke, Geo. W. Beales, M A. Hunter, Henry Fluke, B. R. Henderson and John Dunn were chosen Vice Presidents.

J. E. Noble, A. J. Sansom, J. H. Hutton, W. W. Barclay, J. B. Anderson and J. J. Powell were elected Secretaries.

On motion Mr. B. F. Meyers was called upon to address the meeting—At the conclusion of his address, Mr. Jno. G. Fisher offered the following resolutions which were unanimously adopted.

Resolved, By the Democrats of Bedford county in Mass Meeting assembled, that we re-affirm the true, time-honored and well-tried principles of American Democracy, and especially the fundamental doctrine of our republican system that "all governments derive their just powers from the consent of the governed."

Resolved, That as corolary to the foregoing, the action of Congress in compelling certain States to adopt amendments to the Federal Constitution as a condition precedent to their representation in that body, thus forcibly and fraudulently and corruptly altering the fundamental law, is anti-republican and subversive of liberty as well as of the stability of government.

Resolved, That we recognize in the assumption of power over the domestic concerns of the States by Congress, a deep-laid plan to erect a consolidated government, of imperial powers, concentrated in the hands of an oligarchy, and that we do most solemnly protest against the usurpations of the majority in Congress by which our republican form of government is rapidly being changed into a centralized despotism.

Resolved, That the wastefulness, extravagance and corruptions of the present federal administration, as portrayed by Mr. Dawes and other leading Republicans in Congress, requiring the expenditure of Fifty Millions more of the people's taxes per annum than the administration of President Johnson during its last year, should cause every right-thinking man to determine to rebuke those responsible in the premises, by his ballot as well as by his influence.

Resolved, That the leaders of the so-called Republican party have deliberately violated their pledge to their own followers and to the public made in the Chicago Grant and Colfax platform, namely, that the people of the States should control and regulate the Suffrage question, and have, therefore, utterly forfeited the respect and confidence of those who formerly voted their ticket, that it becomes all decent men to unite for the overthrow of the infamous pledge-breakers, such a union of the true and faithful friends of republican government, being now entirely feasible since by the forceful and fraudful adoption of the Fifteenth Amendment, the issues which lately divided parties are practically, though unfairly, settled, and new questions, arising from the financial condition of the country, the regulation of the currency, system of taxation, payment of the public debt and the foreign policy of the Federal Government, are at present claiming paramount consideration.

Resolved, That the Democrats of Bedford county will re-organize the party, with a view of renewing the contest with the enemies of civil and religious liberty more vigorously than ever, that "sink or swim, live or die, survive or perish," we will uphold the flag of the Constitution and battle under it to the end, believing still that the Devil of Fraud who hath been loosed for a little season, will soon be chained in the fetters of his own forging.

Resolved, That J. W. Dickerson, Esq., be and he is hereby elected a delegate to the Democratic State Convention for the present year.

E. F. Kerr, Esq., being called upon, then addressed the meeting in a brief, but pertinent and argumentative speech.

The meeting then adjourned.

THE present session of the legislature does not promise to be propitious to the members of the ring. The roosters are coming down as if there was a fire among the rafters of the capitol.—There is such a thing as the veto power in Pennsylvania.

THE Democratic meeting on Monday night, was quite a success. The new issues on which parties are about to divide, will make future Democratic meetings so large that the Court House will not hold them. Mark it!

We have received the annual report of the trustees and superintendent of the State Hospital for the Insane at Harrisburg, for 1869. The number of patients admitted during the year was 212, of whom 103 were males and 109 females. The number discharged during the same period was 158, of whom 40 were restored and 42 improved.—The total of patients treated in this institution since its establishment is 2,750. Of these 1,272 were married, 263 single, and 215 widowed. Males, 1,568; females, 1,182. Among the assigned causes of insanity, "trouble" figures most prominently, the number thus assigned being 324. Ill-health and domestic trouble follow next in order.—There is but one case of "want of occupation," and only 82 cases assigned to intemperance. In 1,264 cases no cause was assigned. Of the occupations, 501 were farmers, 577 were housewives, 434 laborers, and 490 had no occupation. There has been no epidemic sickness during the year, and only 28 deaths have occurred.

CONGRESSIONAL.

WASHINGTON, Feb. 8.

In the U. S. Senate, yesterday, Georgia was duly reported as having ratified the fourteenth and fifteenth amendments. Messrs. Hill and Miller, the Senators elected by the Legislature a year ago, are in Washington demanding admission, but they are hardly Radical enough to get in. The Senate discussed the Census bill, and also Mr. Trumbull's bill to relieve Members of Congress from the importunities of office-beggars. Two railroad jobs were reported favorably by Messrs. Howard and Osborn. Mr. Corbett reported favorably the bill to encourage telegraphic communication between the United States and Asia, by means of a submarine cable under the Pacific Ocean. The Senate listened to eulogies upon the late Representative Hoag from Messrs. Sherman and Thurman. In the House of Representatives four fresh railroad jobs were introduced. An important vote was had on the tariff question, which showed that the free-traders are making a steady gain. It was upon a resolution declaratory of the sense of the house that no tariff should be adopted that was not adjusted to a revenue standard. It was laid on the table by a vote of 89 to 77. Bills were introduced to reduce letter postage to two cents, and newspaper postage to one cent; to exempt newspapers from operation of the law abolishing the franking privilege; to discontinue the Freedmen's Bureau; to authorize the government to buy all patents and copyrights; and (by Mr. Arnell of Tennessee) to "do justice to the female employes of the government, by giving them the same compensation as men in like positions." The death of Mr. Hoag was announced with appropriate tributes, and a committee appointed to accompany the remains to Ohio.

WASHINGTON, Feb. 9.

In the United States Senate, yesterday, there was an animated debate over Mr. Kellogg's bill to remove the political disabilities of several hundred people in the South (mostly ex-rebels professing Radicalism). Mr. Stewart wanted to introduce a resolution making the removal general, but at the suggestion of Mr. Davis, of Kentucky, he withdrew it until a more appropriate occasion. Mr. Sumner expressed his disgust at this clemency business. He had received letters from Virginia assuring him that some of the individuals who had been pardoned recently, had since spoken very disrespectfully of Congress. In spite of Sumner's remonstrance, however, the bill was passed. Mr. Sherman introduced a resolution having in view the promotion of a common standard of international coinage. Mr. Tipton fathered another railroad job. The Senate debated the census bill until the hour for the executive session.

In the House of Representatives there was a discussion over the *Globe* printing job, and some hard things were said of the expensiveness of the luxury. Mr. Laflin estimated the cost of last Friday's issue of the paper at about $1,300, and Mr. Dawes thought that after it was published it was good for nothing. Mr. Garfield made a set speech in favor of abolishing the *Globe* altogether. During the debate Mr. Voorhees (Dem.), of Indiana, and Mr. Blair (Rad.), of Michigan, took occasion to defend the franking privilege against the assaults of the Postmaster General. Mr. Ingersoll attempted to introduce for reference to the Judiciary Committee a joint resolution proposing a new amendment to the Constitution, to the effect that Congress shall have the power to issue United States notes, and may make them a legal tender in payment of debts. A Democrat from Kentucky objected. The House took up the report of the Committee on elections in favor of giving the seat of Henry D. Foster, of Pennsylvania, to the contestant, John Covode, and a debate ensued. To the consternation of the Radicals, Mr. Paine, of Wisconsin, chairman of the committee, arose and offered his resignation. He could not consent to serve on a committee where blind partizanship is the sole rule of action. Mr. Paine's honorable action called for a high compliment from Mr. Randall (Dem.) who hoped that the House would not accept the resignation of so useful a member of the committee. Pending the action of the House, an adjournment was carried.

WASHINGTON, Feb. 10.

In the United States Senate, yesterday, Morton made an elaborate speech in favor of the Cubans. He was notably severe upon the cruelty of "the Spanish troops, and remarked that "the Spanish character has lost nothing of the atrocious and satanic barbarism by which it was distinguished in the war in the Netherlands." Mr. Anthony followed with a vigorous speech, in the manner of Dawes, against the extravagance of the government. Mr. Trumbull reported a bill admitting Mississippi. It admits the State *minus* the Virginia restrictions. The House census bill was then taken up and discussed, and was enlivened by a severe excoriation of Mr. Sumner by Mr. Conkling. The House bill, so persistently supported by Sumner, was laid on the table by a vote of of 46 to 9, a significant illustration of the lost power of the Massachusetts autocrat over the Senate. In the House of Representatives the *Globe* waste was under discussion again; but a motion of Mr. Dawes to strike out of the appropriations the item for *Globe* reporters was defeated. The House with partisan haste, voted to admit John Covode (Rad.) to the seat to which General Foster (Dem.) was elected, not even having the courtesy to wait for General Foster to reach Washington to speak in his own behalf. Mr. Cox attempted to get in a resolution of inquiry for information as to the unexpended balance monthly from March, 1869, to February, 1870, but was choked down by a Radical objection. A resolution introduced by General Banks, calling upon the President for information about the murder of Americans in Havana, was adopted.

WASHINGTON, Feb. 11.

In the Senate, yesterday, the bill appropriating $3,000.000 to supply deficiencies for the naval service was amended and passed. After the transaction of other business the House bill for the admission of Mississippi was called up. The question pending was the amendment proposed by the judiciary committee of the Senate to strike out the proviso imposing conditions of admission. A long debate ensued, which continued up to the hour of adjournment.

In the House, the bill in relation to the imprisonment of American citizens in Great Britain was discussed. The bill for the relief of the poor of the District of Columbia was amended so as to allow the Secretary of War to contract for supplies, where it may be done at less cost than by issuing rations, and agreed to. The consideration of the legislative appropriation bill was then resumed. Quite an exciting debate ensued.

WASHINGTON, Feb. 12.

In the United States Senate yesterday Mr. Sherman introduced a resolution providing for the immediate recognition of the belligerency of the Cuban insurgents, and supported it in a strong speech. In the course of the debate which followed, Mr. Sumner remarked sneeringly that the Committee on Foreign Relations were willing to report in favor of recognition if a war existed in Cuba, but up to the present time they had been unable to obtain any facts which indicated the existence of war. Mr. Sherman in reply called his attention to the thirty gunboats built in New York for the Spaniards on Cuban waters. He consented to the reference of his resolution to the Committee on Foreign Relations. The Senate also discussed the Franking Privilege and Mississippi Admission bills. While upon the latter subject, Mr. Drake defended Mr. Sumner against the aspersions of his numerous enemies in the Radical ranks, and berated those who did not worship him as apostates and consorters with Democracy. There was also a blackguard tilt between Nye and Fowler while comparing records as to the soundness of their Radicalism. In the House of Representatives bills were introduced to amend the Bankruptcy law, and to provide for the further reduction of the army. After the disposal of a number of private bills, the House went into Committee on the Legislative Appropriation bill. An amendment offered by Noah Davis, to deprive the members of Congress of their free newspapers and stationary, was promptly voted down. Both Houses, before adjournment, listened to eulogies upon the Hon. B. F. Hopkins, M. C. from Wisconsin, who died on the 1st of January last.

A NEW DISEASE IN NEW YORK.—The N. Y. World, of Saturday, has the following regarding the "relapsing fever," a new disease which has lately appeared in that city. There are thirty-two cases of it which are known to exist in this city at the present time in the hospitals. The disease has been sent to those institutions under different names—typhus, typhoid, and simple fever; but they have proved to be relapsing fever. The fever has been prevalent in the workshops of Great Britain for a great many years. It is a common disease in England, Ireland, Scotland, Russia, Poland, and the North German towns. Dr. Norton does not know how it got here at this time. It appears thus far to have made its appearance in places which were remarkable for overcrowding and filth. There is a good deal of pain in the head, which lasts six or seven days. Then there comes a sudden sweating, under which the temperature falls quite low—of course below the normal temperature. When the patient is in that condition he suffers from a species of rheumatic pains, and is left in a very exhausted condition for five or six days. Then comes on the relapse, and the same course of the disease is gone over again. The patient may become so exhausted that death may ensue.

The rapid outflow of colored laborers from Virginia to the Southern States has given rise to the erroneous impression in the Gulf States that the real cause of the movement is the difficulty of the population of Virginia to find food for them, owing to short crops, &c. An Alabama paper goes so far as to say that it remains for the Southern planters to "save the Virginia negro from the death which squalid pauperism always has in store for its poor victim." From the accounts given in the Virginia papers it would seem that the class of colored people who have been induced to go south from that State do not belong to the class especially in want of such relief. They are, generally, the best laborers, who have never yet found it difficult to make a living, but charmed by the temptations of high wages and warm weather have been induced to leave their old employers. Very few of the worthless colored people leave their homes; they prefer to remain and be as lazy as ever, and hence the many complaints and apprehensions, especially from South-side Virginia, regarding the prospect for making the next crops.

A decision was rendered in the United States Supreme Court yesterday in one of the legal-tender cases. Chief-Justice Chase delivered the opinion of the court, sustaining the decision of the court below, and holding that a contract made before the Legal-tender law could not be discharged in United States notes. The opinion is very long, and discusses at great length the powers of Congress. It holds that Congress had no right to make government notes a legal-tender for pre-existing private debts. It does not touch the question of contracts made since the law was passed. The opinion was concurred in by Justices Nelson, Clifford, and Field, majority of the court. The three other Justices dissented.

NEWS ITEMS.

What next? Now comes a new thing for brides, in the shape of a plain gold locket which the bridegroom fastens about the neck of his duck and locks it with a key. The key is put upon his watch-chain, and thus we are informed, with charming naivete, that 'both are constantly reminded of each other.' And has it come to this, that a lock and key are recommended to remind newly-married couples of each other? We had supposed that chintz, chignons, loves of bonnet, switches, hoop-skirts, and so forth, would furnish a constant reminder of his captivity to the husband, and late hours a like reminder to the wife. But this is an age of invention.

Smuggling dry goods through the mails has taken on huge proportion. Laces, furs, etcetras, put in the oftenest appearance. But books and jewelry are not uncommon. Packages containing such articles are sent from Europe and Canada. A Mrs. Brotherton, milliner, acknowledges to a smuggle amounting to $500. A member of the Chicago Board of Education was caught at smuggling books. A gross of hymn-books, addressed to Brigham Young, Salt Lake City, was also stopped at Chicago. So law cannot eliminate rascality from nature after all.

The advocates of woman suffrage are to have an enemy they little anticipated. Some of the most prominent ladies in Washington, among them Mrs. General Sherman and Mrs. Admiral Dahlgren, are about to take active measures in opposition to the movement to secure the ballot to women.—One lady recently appeared before the Senate committee and made a strong argument against suffrage. This fire in the rear is likely to have a demoralizing effect upon the new recruits in Miss Anthony's army.

Much to the confounding of the geologists, human footprints have been discovered in the same strata with the tracks of birds in the Turner's Falls rocks. What will become of present theories if it be proved that man is coeval with the frightful semi-reptile birds of which we have such frightful fancy pictures? As animate creation was pretty much of a muchness in those days, may we not indulge the hope that man, then, was a cross between a bat and a crocodile?

A man in Auburn, Me., in last season's hay harvest put five tons of green grass, just from the mower, into a tight bin in his barn, to test a newly recommended method of curing hay. The grass was snugly stored away and covered with several tons of straw, according to recommended practice. On opening the bin this winter it was found the entire lot spoiled—not fit even for bedding for horses.

It is reported that government officials are going around in the country investigating every receipt book, bill, etc. The reason of this is to see if the proper revenue stamp is adjusted or not. If the latter be the case, a fine is imposed upon the holder of the paper, who, perhaps through neglect, has omitted to have the paper. Business men would do well therefore to examine their papers in order that they may not be victimized.

The captain of a ship at San Francisco evaporated some quicksilver in his vessel, in order to destroy the rats, which was effectually accomplished.—The ship was then ventilated, and the crew went on board at night to sleep. In the morning all were found to be salivated—the fumes of the quicksilver not having been thoroughly eradicated. They narrowly escaped the fate of the rats.

A Pennsylvania negro has been elected by the South Carolina negro Legislature Associate-Justice of the Supreme Court of that State. He has a smattering of law and has practised some in a police court. The negroes demanded a representative on the supreme bench, and this J. J. Wright, was the only available timber within reach.

President Grant sent to the Senate the nomination of his venerable father, the Hon. Jesse R. Grant, for Postmaster at Covington, Kentucky. The elder Mr. Grant was first appointed to the postmastership by President Johnson, and this action is for a renewal of the lease.

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address REV EDWARD A. WILSON,

Williamsburg, Kings County, New York.

Schenck's Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills, will cure consumption, Liver Complaint, and Dyspepsia, if Taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catnarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting out it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A.M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

A verdant youth of Meadville sent a dollar to New York for a method of writing without pen and ink. He received the following inscription in large letters: *Write with a pencil.* Sold again, and another sucker's dollar taken in! Call the next!

At a recent donation party at the house of a minister, in an adjoining county, some rascally wag left a sack of sawdust done up in imitation of flour. That fellow ought to be doomed to repent in sawdust in a clime where the thermometer runs high!

Two men entered an ore mine near Mount Union, Huntingdon county, a few days since, carrying lamps. A spark from one of the lamps fell into a box of powder, and a fearful explosion occurred, killing one man instantly and mortally wounding the other.

The Huntingdon *Globe* says, "There is a rumor that the devil appeared in a mush-pot, in this place, one evening last week." They must be punishing an awful lot of bad whisky in that place. Corn in the shape of mush never causes men to see spooks.

The "roosters" at Harrisburg have dropped their feathers considerably since Geary vetoed the infamous Metropolitan Police swindle. Their last attempt to get up a respectable crow has been pronounced a sad failure.—What proves a discomfiture to the "roosters" is a blessing to the people.

A son of Rev. Logue, living on Clear ridge, was killed on the morning of the 1st inst., by his horses running away. It seems that by some means they became unmanageable, and in endeavoring to check their progress, by leaning too far over the dashboard, he fell to the ground and the wagon passed over him; he survived but a short time.

This is given as the original "Shoo Fly," as written by Macarthy, in 1865:

I feel, I feel, I feel I shall go wild.
I feel, I feel, I feel like a crazy boy;
I feel I feel as happy as a child
I feel, I feel my heart so full of joy.
Chorus—So shew fly, don't bodder me,
My g'l's come back, so I've been tole;
Shew fly, don't bodder me,
But give to me my dumplin' whole.

The other day a friend of ours met an enthusiastic fellow from the rural districts, and received the following doubtful invitation to visit the countryman. Says A. to our friend:—"If ever you come within five miles of where I live, *I want you to stop there!*" Our friend thinks he will. We would.

SUDDEN DEATHS.—On last Saturday, John H. Walter, constable of Union township, while going home from a sale which he had held, was suddenly attacked with illness and died in a few minutes in the sled in which he was traveling.

Mrs. Moorehead, wife of William Moorehead, of St. Clair township, died the other day after a brief illness of about fifteen minutes. She had been enjoying good health before the sudden attack which terminated in her death. Surely, "in the midst of life we are in death."

A PLEASANT AFFAIR.—Last Friday, Sheriff Keyser, and his jury, together with a number of invited parties, held an "inquest" on a Mengel House dinner. A number of the legal fraternity were present for the purpose, no doubt, of determining whether the thing came within the rules as laid down by Blackstone. Never have we seen a set of lawyers take hold of a "case" with such alacrity, and for the first time in our existence did we behold the extraordinary anomaly of a dozen or more legal minds agreeing unanimously. Not a law point was raised; no inquisitorial cross examination was gone through with, but lawyers, jury, editors, officers and clerks, manifested an undivided disposition not to "condemn," but to "extend" to mine host of the Mengel House their congratulations for the magnificent repast placed before them, and inwardly yearning for the frequent return of the Sheriff's "inquisition day." And with this "ye local" accordeth.

ORE DISCOVERIES.—Vast quantities of iron ore have recently been discovered in the Flintstone district in our neighboring county of Allegany, Md. The Cumberland *Alleganian*, in speaking of the vast store of mineral wealth, found during recent investigations in that section, says:

During the past week numerous samples of iron ore, taken from the Eastern slope of the Warrior mountain, near the Warm and Cold Springs; have been left at our office for examination. The brown and black hematite are found at a distance of less than a fourth of a mile apart, and in quantities that it is thought almost inexhaustible. Examination has disclosed the fact that one of these deposits of hematite is the continuation of a regular vein leading from Yellow Creek and Hopewell, Pa. This vein of ore is represented to be fifteen feet thick, growing in richness as it extends Southward. The other hematite is not found in Pennsylvania, but from the point above stated, the Eastern slope of the Warrior mountain, to Oldtown, it is represented to be in enormous quantities. Our informant tells us that the whole face of the mountain appears to be a solid mass.

Pennsylvania Coal, Iron and Oil Production.

From the annual report of the executive committee of the Philadelphia Board of Trade, we derive some important statistics relative to the coal, iron and petroleum interest of Pennsylvania.

The anthracite coal production of the State during 1869 amounted to 13,388,457 tons, against 13,674,257 tons in 1868; bituminous coal, (transported by the Pennsylvania Central road alone,) 3,329,338 tons, against 2,065,309 in 1868, an increase of 265,309 tons, and making a total of anthracite and bituminous of 15,714,696 tons, exclusive of that transported by the Monongahela slackwater and other western transporters of coal, which would carry the quantity of Pennsylvania coal brought into use up to very nearly or quite 20,000,000 tons, and to a value of fully $60,000,000.

The production of iron in Pennsylvania for the year 1869 was 965,000 tons, against 872,000 tons in 1868; increase 93,000 tons, the sales of the product being about $34,000,000, or very little beyond the lesser quantity of last year. The added value on the manufactured article may be fairly estimated as $35,000,000, showing a total quantity from 1,424,157, tons to 1,563,000 tons.

The total production of crude oil from Pennsylvania wells during the year amounted to 189,681,390 gallons, an increase of more than 22,000 over 1868 and 33,600 gallons over 1867. The exports amounted to 102,568,831 gallons, at an average price of 25 cents, so that this product has furnished exchange for fully $25,000,000, or more than half the value of the gold export from San Francisco for the year, and the three combined would show values:

For coal, as above, say	$90,000,000
Iron "	69,000,000
Petroleum, including domestic consumption	40,000,000
Aggregate for the three articles	$165,000,000

The total amount of coal consumed in this country in 1869 was $29,839,014 tons. In England, in 1868, 103,141,157 tons were used.

LORILLARD'S "EUREKA" SMOKING TOBACCO is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S YACHT CLUB SMOKING TOBACCO is made of the choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourselves it is all it claims to be, "THE FINEST OF ALL."

LORILLARD'S CENTURY CHEWING TOBACCO. This brand of Fine Cut chewing tobacco has no equal or superior any where. It is without doubt the best chewing tobacco in the country.

LORILLARD'S SNUFFS have now been in general use in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

AYER'S
HAIR VIGOR,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

THE ONLY RELIABLE CURE FOR DYSPEPSIA
IN THE KNOWN WORLD.

Dr. Wishart's Great American Dyspepsia Pills and Pine Tree Tar Cordial are a positive and infallable cure for Dyspepsia in its most aggravated form and no matter of how long standing. They penetrate the secret abode of this terrible disease, and exterminate to it, root and branch, forever.

They alleviate more agony and silent suffering than tongue can tell

They are noted for curing the most desperate and hopeless cases, when every known means fail to afford relief

No form of Dyspepsia or Indigestion can resist their penetrating power,

DR. WISHART'S
PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained. It invigorates the digestive organs and restores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs. It dissolves the mucus or phlegm which stops the air passages of the lungs Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation It is the result of years of study and experiment, and it is offered to the afflicted with positive assurance of its power to cure the following diseases if the patient has not too long delayed a resort to the means of cure:

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, &c

A medical expert, holding honorable collegiate diplomas, devotes his entire time to the examination of patients at the office parlors. Associated with him are three consulting physicians of acknowledged eminence, whose services are given to the public free of charge.

MUSICAL DOINGS – Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adcertisements of rival piano houses, probably overlook the modest manufacturer like Mr Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur player in the city, as well as several celebrated pianists have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15.'69.

THE WEEKLY WORLD,

a large quarto sheet, printed throughout in large type and published every Wednesday morning, has now the largest circulation of any weekly newspaper in the United States, with possibly, a single exception. Among its prominent features are:

1. Its very full and accurate market reports, embracing the Live Stock markets of New York, Albany, Cambridge, and Philadelphia; and New York Country Produce Market, and General Produce Markets of the country; and full reports of the New York Money Market. Each of the reports are complied with great care, and contain the latest quotations that can be obtained up to the time of putting the paper to press.
2. Its Agricultural Department, which contains each week articles on practical and scientific farming that are of great value to American farmers. A special feature of this department is a weekly summary of the condition of the Hop Markets at home and abroad.
3. A very full report of the proceedings of the Farmers' Club of the American Institute is printed in each issue of the Weekly World, the day after the meeting of the Club. By this arrangement the report appears in the Weekly World one week in advance of its publication in any other weekly paper.
4. A portion of the Weekly World is reserved for family reading matter, including original and selected stories, poems, waifs of humor, and extracts from books and periodicals—Particular attention will be given to this department during the year 1870.
5. A special feature of the Weekly World is a carefully complied summary of the news of each week. It is made so complete that no one who reads it can fail of being well posted on all the important news of the day.

THE SEMI-WEEKLY WORLD,

published Tuesday and Friday, is a large quarto sheet, containing all the news published in the Daily World, with the exception of such local reports as may be of no interest to non-residents of New York City. Its market reports are as full as those of the Daily edition, and it contain, besides interesting literary matter, on Friday of each week a full report of the Farmers' Club.

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement, and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. READ! READ!! READ!!!
MIDDLETON'S
WONDERFUL PAIN CURE.

A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffness, of the Joints and all similar diseases.

This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture

For assurance of its excellent properties, read the following certificates;

BEDFORD, May 8, 1869.

I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once. I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.

BEDFORD April 14, 1869.

Mr. W. W. Middleton,

This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst., so that I was unable to raise my hand to my face. I got some of your Pain Cure and applied it twice, and was entirely relieved. I would recommend to every one who suffers with Rheumatism to give it a trial and be cured.

Yours &c., A. F. MILL
